Master Watershed Steward Program

extension.psu.edu

Many states throughout the nation offer natural and water resource steward volunteer programs through university extension services; these programs train citizen volunteers in the basics of water resources stewardship. Now Penn State Extension, with the help of other local environmental groups, has launched Pennsylvania's own Master Watershed Steward program.

Where is the program offered?

Allegheny
Berks
Bucks
Chester/Delaware
Cumberland
Dauphin/Lancaster/Lebanon
Lackawanna/Luzerne/Wyoming
Lehigh/Northampton
Monroe
Montgomery
Philadelphia
York

How do I become a Penn State Master Watershed Steward?

Contact your local extension office for program information and training opportunities.

Penn State College of Agricultural Sciences research and extension programs are funded in part by Pennsylvania counties, Commonwealth of Pennsylvania, and the U.S. Department of Agriculture.

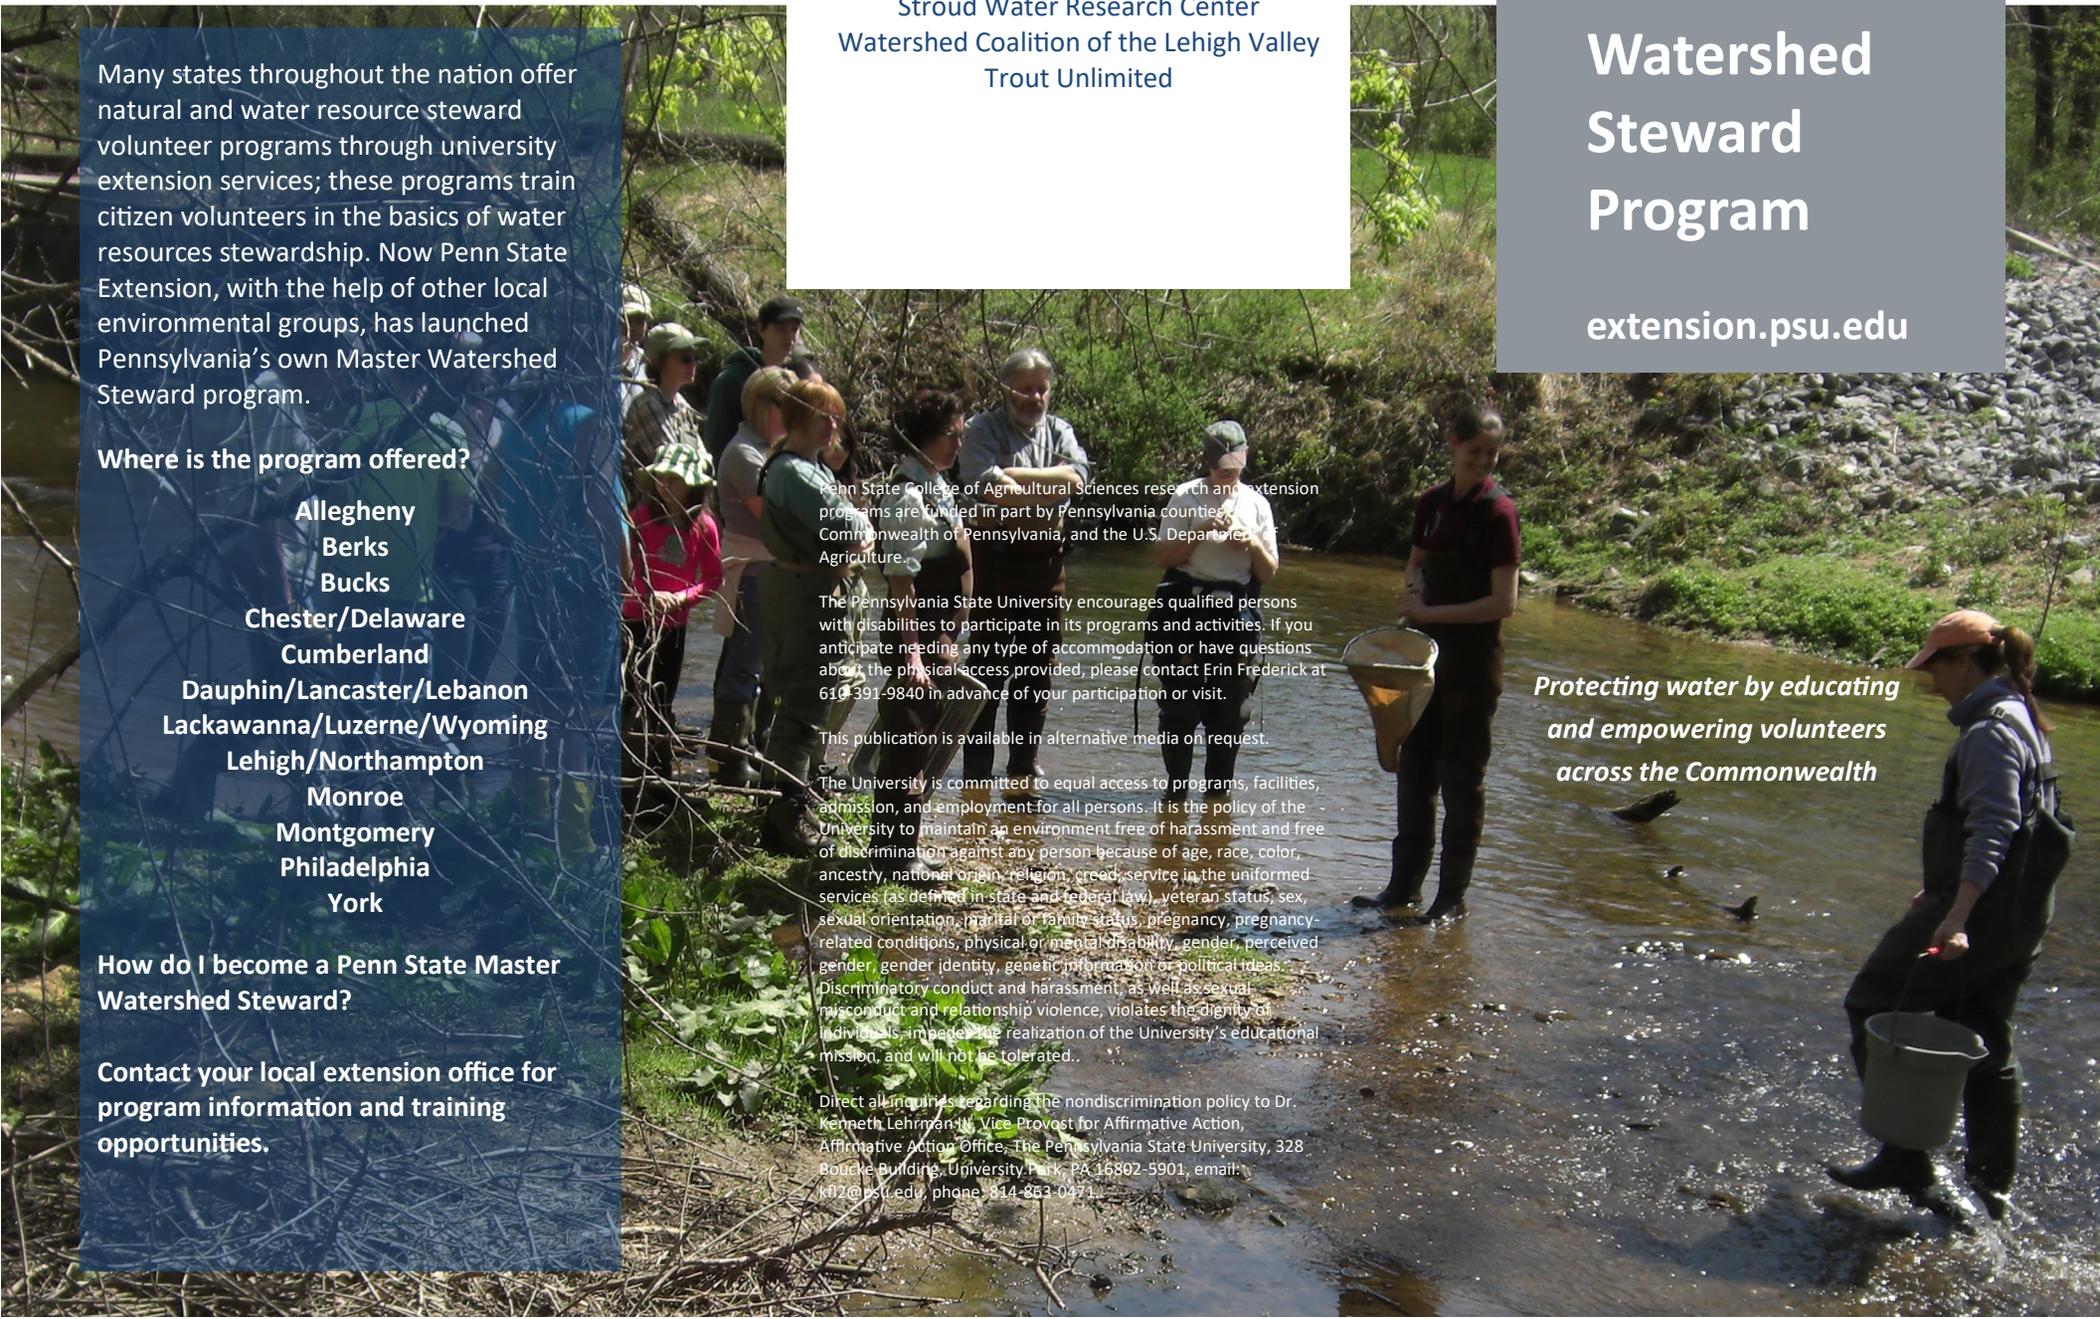

The Pennsylvania State University encourages qualified persons with disabilities to participate in its programs and activities. If you anticipate needing any type of accommodation or have questions about the physical access provided, please contact Erin Frederick at 610-391-9840 in advance of your participation or visit.

This publication is available in alternative media on request.

The University is committed to equal access to programs, facilities, admission, and employment for all persons. It is the policy of the University to maintain an environment free of harassment and free of discrimination against any person because of age, race, color, ancestry, national origin, religion, creed, service in the uniformed services (as defined in state and federal law), veteran status, sex, sexual orientation, marital or family status, pregnancy, pregnancy-related conditions, physical or mental disability, gender, perceived gender, gender identity, genetic information or political ideas. Discriminatory conduct and harassment, as well as sexual misconduct and relationship violence, violates the dignity of individuals, impedes the realization of the University's educational mission, and will not be tolerated.

Direct all inquiries regarding the nondiscrimination policy to Dr. Kenneth Lehman III, Vice Provost for Affirmative Action, Affirmative Action Office, The Pennsylvania State University, 328 Boucke Building, University Park, PA 16802-5901, email: kl2@psu.edu, phone: 814-863-0471.

and empowering volunteers
across the Commonwealth*

What do Penn State Master Watershed Stewards do?

Master Watershed Stewards volunteer in the community to improve the health of our streams, rivers and other natural resources.

What is the Penn State Master Watershed Steward Program?

The Penn State Master Watershed Steward program was established to educate and empower volunteers to protect environmental resources. The program provides interested individuals with extensive training in watershed management and natural resources. In return for the training, participants dedicate volunteer time to educate the community about environmental stewardship based on university research and recommendations.

Training and volunteer service are coordinated at the county level by extension staff, partners, or trained volunteers. Each year 15-20 people per county are selected for the program. Those accepted to the program attend training classes that focus on a broad range of water and natural resource topics, including groundwater, stream ecology, wetlands, invasive plants, water recreation, wildlife, forestry and stormwater management. There is a one-time registration cost to those accepted into the program, with scholarships available to those with financial hardships.

Volunteer Opportunities include:

- Organizing educational events such as rain barrel building workshops and seminars on backyard stormwater management.
- Participating in stream restoration projects.
- Sampling water quality and stream assessments.
- Coordinating and conducting stream clean-ups.
- Planning and carrying out habitat improvement projects.
- Working with municipal officials on stormwater.
- Teaching adults and children about the environment.

What is required of a Penn State Master Watershed Steward?

To become a Master Watershed Steward, you need a **keen interest** in the environment, a **willingness to learn** and most importantly, a **strong desire to make a difference** in the community. Whether you are a teacher, an accountant, a construction worker, a homemaker, or retired, **YOU** can become a Master Watershed Steward!

To become a certified Master Watershed Steward, you must complete a minimum of 40 hours of training and fulfill 50 hours of volunteer service. In subsequent years, you can maintain your Master Watershed Steward status by giving at least 20 additional volunteer hours and attending at least 10 hours of continuing education annually.
